

Orchard ABOUT US

Orchard Organic Farm is our mixed, family farm situated on the South

Devon coast. We have farmed organically in accordance with the Soil Association's strict standards since 1995 and are proud to be Organic. Our laying hens live in small flocks, happily roaming free range in our organic apple tree orchard and fields. The welfare of our hens is our key priority. In addition to their grazing, the hens have unlimited access to feed which includes of our home grown organic corn. The feed does not contain any artificial colouring agents, so the colour of the egg yolks is natural and can vary at times. Please feel

free to contact us for any further information. Thank-you for purchasing our eggs, we hope you enjoy them.

Orchard HENS AND EGGS

Our aim is to produce the best possible quality eggs from the happiest and healthiest hens by complying to our standard and achieving our key aims which include:

- Maximum of 500 hens in a flock
- 100% organic corn based feed rations
- High quality housing and husbandry
- Free Range in fresh grass
- Eggs packed on farm and delivered in 1 week of lay

We hope you will agree that the proof is in the taste!
